FOREWORD

The *BC Labour Directory* is an annual publication of the Policy and Legislation Branch of the Ministry of Labour and Consumer Services which compiles information with respect to membership and officials of collective bargaining organizations in the province. The reference date for statistical information is January 1, 1987.

Information for this publication is obtained primarily from Statistics Canada's C.A.L.U.R.A. (*Corporations and Labour Unions Returns Act*) Survey. Every effort is made to obtain accurate and up-to-date information. The reliability of the information depends mainly on the accuracy of the respondents.

Particular attention is drawn to the union index at the end of the publication. Since some unions have locals with distinct and different names, and some unions are known by short names or initialisms, this index is included to serve as a finding guide to the union listing including full and short forms, initialisms and local names.

We wish to thank all those who cooperated during the gathering of the information that went into the preparation of the *BC Labour Directory*. In the event that errors or omissions are discovered, it would be appreciated if they were brought to our attention (call 387-1762 in Victoria). The publication was produced by staff members Sharon Churchill and Pieta Van Dyke.

Claude G. Heywood
Acting Director
Policy and Legislation Branch

Union
Membership Summary
1987

UNION MEMBERSHIP SUMMARY — 1987

As of January 1, 1987 trade union membership stood at 464,279. This total represents a 2.2% increase from 1986, and is a return to the 1985 level (466,684). It is the first increase in membership recorded since 1982. The proportion of paid workers who are trade union members was 39.7%. This is virtually the same proportion as in 1986, since the total paid workforce increased at the same rate as the unionized workforce.

There were a number of union name and organizational changes during 1986-87, as follows:

Brotherhood of Railway and Airline Clerks (B.R.A.C.)	now Transportation Communications Union (name change)
Canadian Auto Workers Districts 150, 151, 155, 157 (airline employees)	now Transportation Communications Union, Lodge 1804
Canadian Airline Flight Attendants (C.A.L.F.A.A.)	now C.U.P.E. Airline Division
Canadian University Employees	now C.U.P.E., Local 2950
Cement Workers	now part of International Brotherhood of Boilermakers
Food and Service Workers	now C.A.I.M.A.W., Local 112
Grain Workers Union	now B.C.G.E.U. affiliate (retains its name)
Service, Office and Retail Workers Union of Canada (S.O.R.W.U.C.)	now C.A.I.M.A.W., Local 112 and Food and Commercial Workers, Local 1518 (original union defunct)

Of the 24 unions with over 5,000 members, approximately one half experienced increases in membership while the other half experienced decreases. This contrasts with 1986 when the majority of unions experienced declines in membership. The increases in 1987 were significantly higher than the decreases, and were due both to amalgamations and to actual membership growth. The largest proportional growth, 57.5%, was in C.A.I.M.A.W., due wholly to the inclusion of the Food and Service Workers into that union. The largest actual membership increase was in the B.C. Teachers' Federation, which grew by 19.5%, returning to its 1985 level. The Canadian Union of Public Employees increased by 18.2%, largely due to the amalgamation of the Airline Flight Attendants and the Canadian University Employees. A seemingly similar level of increase of 18.0% by the Health Sciences Association is actually due to a change in reporting procedures (the current total represents individual members, whereas previously the total was for full-time equivalents). A smaller but still substantial increase of 9.9% was experienced by the B.C.G.E.U. due to small increases in all components along with the inclusion of the Grain Workers Union as a B.C.G.E.U. affiliate. An overall increase of 7.3% was registered by the International Association of Machinists. Decreases in membership were reported by a number of craft and industrial unions ranging from a decline of 5.4% by both the Carpenters and the Steelworkers, to a decline of 1.2% by the I.B.E.W.

Female trade union membership rose by 6.9% in 1987. Women now represent 34.6% of all unionized workers, up slightly from 33.0% in 1986, continuing a slow but steady increasing trend. Ten years ago, in 1977, women represented only 28.8% of all union members.

Union membership compared by industry shows virtually no change from 1986. Manufacturing employees made up 18.1% of all members; while 14.8% were in Construction; 13.9% in Transportation and Communications; 25.0%, the highest proportion, were in Community Services; and 16.6% in Public Administration.

Headquarters
and Locals

UNION HEADQUARTERS AND LOCALS

This section contains membership and officer information for both headquarters and locals of unions in British Columbia. Entries are arranged in alphabetical order according to the short name of the labour organizations although no official recognition of such abbreviated titles is intended. In those instances where a union's short name is derived from the initials of its full name, alphabetical listing is usually based on the first word in the full name. (For example CUPE comes under "Canadian Union" rather than under "CU").

Beneath the short and full title listing of each union is its affiliation, if any, to international and/or national congresses or federations. Abbreviations used are:

- AFL-CIO —American Federation of Labor
—Congress of Industrial Organizations
- CLC —Canadian Labour Congress
- CFL —Canadian Federation of Labour
- BC FED —British Columbia Federation of Labour
- CCU —Confederation of Canadian Unions
- AFL-CIO/CLC—affiliated with both bodies
